

TESLA-in-SRTP Update

Baughner, Carrara

TESLA-in-SRTP Version 02 (1)

- Discussion on the mailing list
- Index "i" taken out of TESLA MAC coverage
- Parameter list updated
 - D_t added
 - Name inconsistencies resolved
- Log failed verification of the safe condition

TESLA-in-SRTP Version 02 (2)

- Spelled out presence of external MAC for DoS from non-members
 - Optional for SRTP
 - Mandatory for SRTCP
- Null packets with TESLA keys for one entire interval after stream stops.
- Cleaning-up
